- **Product Evolution:** 12+ product iterations • 40+ concepts → 5 core systems
- **Current Stage:** Working MVP • Pilot preparation • Pre-seed fundraising
- **Recognition:** 11+ national & international awards, fellowships, funding, incubations, and startup showcases

Professional Experience

11/2025 – Present
Dhaka, Bangladesh

Founder & Product Lead, EduLens 🔗

- Building **EduLens** 🔗 , a **Student Operating System** - the **Google Maps for Students**.
- Started as **Connectify** (June 2023), a peer-to-peer study abroad mentorship platform, before evolving into EduLens.
- Conducted **500+ customer discovery conversations** to validate student needs and shape product direction.
- Identified the core problem: **information is everywhere, but direction is missing**.
- Led **12+ product iterations**, evolving from a study abroad co-pilot to a Student Operating System.
- Reduced **40+ ideas, tools, and features** into **5 interconnected core systems**.
- Built a **working MVP** for readiness, roadmaps, opportunity tracking, document workflows, and AI-assisted guidance.
- Leading **product strategy, roadmap development, customer discovery, fundraising, partnerships, and early go-to-market**.
- Earned **11+ national and international recognitions** across startup competitions, fellowships, funding, and incubation programs.

06/2026 – Present
Dhaka, Bangladesh

Junior Executive, Operations, Shikho 🔗

- Execute the operational backbone of **one of Bangladesh's leading EdTech companies**, supporting reliable delivery of digital learning programs.
- Coordinate teachers, platforms, and internal teams to deliver seamless live learning.
- Manage real-time operations across **Shikho App, Zoom, Google Meet, OBS Studio, and internal systems**.
- Oversee scheduling, recordings, documentation, operational tracking, and studio readiness.
- Support scalable academic operations through structured execution and rapid issue resolution.
